

# SOUL TRANSITION TRAINING WORKSHOP

A death passage is a sacred birth celebrated by the soul. For loved ones left behind it begins a process of grief, but it can also be seen as a celebration of the soul's emergence to the higher Spiritual World. In the Western world the focus is on giving enormous amounts of information to prepare for every aspect of life except the death passage. All ancient cultures had beautiful rituals for assisting loved ones to participate in their process of spiritual birth.

Soul passage work is the most sacred responsibility a person can assume to assist a loved one's soul make the transition to the Spiritual World. There is no specific religious affiliation needed to do this work. Soul passage work requires an open heart, an internalized belief in the concept of "eternal life", and the self-confidence to be available to the Divine Forces guiding one's work.

In this Training Program participants will learn specific rituals for assisting souls to pass to the Spiritual World. Protocols will be given for how to do Soul Passage Work in person, and by long distance. Soul Passage Work for both incoming and outgoing souls will be presented.
